

The experts' choice for nationwide county court research

ExpertCourt™ blends world-class expertise and innovative technology to deliver the best combination of quality, turnaround time, and accuracy

The intersection of human expertise and sophisticated automation

Powered by proprietary technology and a finely tuned workflow, ExpertCourt streamlines the county criminal verification process and provides results—with 100% confidence.

Benefits of ExpertCourt

Our county court team has over 300 years of combined experience. Leaders—many with multiple decades of experience—oversee a public records research team with advanced industry certifications. Our entire public records team is based in the United States.

The ExpertCourt research team leverages an unmatched record extraction system, built on a fast-growing library of more than 1,000 court integrations. This technology empowers our team to streamline the collection of criminal court information.

We understand the benefits of both automation and human expertise and follow a court research workflow that takes advantage of the very best of each. This unique hybrid solution allows us to provide consistent, accurate results while reducing errors and turnaround time.

Specialized solutions for challenging states

ExpertCourt provides county court research in all 50 states, with specialized expertise in the following states:

- California
- Nevada
- Hawaii
- North Carolina
- Illinois
- Virginia
- Maryland
