

Welcome to VINE – Victim Information and Notification Everyday

The Illinois Attorney General's Office is pleased to announce the new version of the AVN System/Victim Information and Notification Everyday (VINE). We are making a series of system upgrades to the current system, giving victims more user options and access to your services through a provider directory. By participating in the directory, your organization can connect with over 400,000 VINE users in Illinois. There is no cost for your agency to appear in the directory and it will be accessible by computer, tablet, and mobile device.
